Subject: GW monitoring

Hi Michele,

Per Mike's discussion yesterday about the State Bd's interest in discussing a potential GW monitoring plan for UIC wells, I wanted to pass along a web link to information about GW monitoring under SB4

(http://www.waterboards.ca.gov/water_issues/programs/groundwater/sb4/index.shtml). It should at least give us insight as to what they are doing for fracking and acidization. David
